

New Britain High School Academies

Find your career and passion today!

The NBHS Academies family consists of four career pathway academies that bring careers to life in a variety of fun & innovative elective courses. Students gain specific industry content knowledge needed to be successful in that field of study. In collaboration with community partnerships, students participate in real world work experiences via job shadowing, internships, and apprenticeship opportunities to provide them with the best possible advantage to compete in an ever changing workforce.

Academy of Business & Finance

Are you the next multi-million dollar entrepreneur or CEO? Have a fascination with making money? Are you intrigued by brands like Apple, Nike, Google?

Academy of Health & Sciences

Do you love to help people? Does the human body and systems excite you? Will you be the one that finds the next cure for the latest disease?

Academy of Manufacturing, Engineering & Technology

Are you excited about how things work? Do you like to tinker, create, and build? Have a passion for computers, electronics, or the World Wide Web?

Academy of Public Service

Do you want to make a difference in someone's life? Love to work with kids? Does helping others provide you with a sense of purpose? Is a career working with people in a public service for you?

To enroll in an academy course, please see your guidance counselor for selection of courses.

For more info, visit www.csdnb.org/academies or email the team leads or Samantha Araujo, Academy Counselor, araujo@csdnb.org

Academy of Business & Finance

The NBHS Academy of Business & Finance offers students with many choices of electives to explore the world of financial services & banking, personal finance, accounting, marketing, management, international business, and entertainment and sports marketing.

For more information contact the team lead, Marc Wesoly, at wesoly@csdnb.org.

Academy of Health & Sciences

The NBHS Academy of Health & Sciences offers students the opportunity to develop an understanding of the theory, concepts, technical knowledge and analytical abilities that will enable them to deliver healthcare in hospitals, nursing homes, clinics, and in the home where sick, injured, and disabled people are treated.

For more information contact the team lead, Michael Knight Zayas, at zayasm@csdnb.org.

Academy of Manufacturing, Engineering & Technology (MET)

The NBHS Academy of MET answers the acute need for engineers and STEM professionals in fields like electronics, biotech, aerospace, engineering, and architecture. As technology becomes the forefront in all industries opportunities in computer science, programming, graphic arts, web design and other areas in the expanding digital workplace are available.

For more information contact the team lead, Eric Nelson, at nelsone@csdnb.org.

Academy of Public Service

The NBHS Academy of Public Service is the newest academy of the four and features a strong career pathway in Early Childhood Education and Teaching. Expansion of this academy will include courses linked to a variety of public service occupations such as social work, mental health counselor, criminology career, law enforcement and many more.

For more information contact the team lead, Colleen Moffett-Mals, at moffett@csdnb.org.

The Work Based Learning Advantage

The NBHS Academies are privileged to work under the National Academy Foundation (NAF) umbrella connecting our students to a national network of education, business, and community leaders through rigorous and relevant in-class, project-based learning while also applying that learning in real work-based learning experiences. The NBHS Academies is fortunate to work alongside a dedicated group of community and national partners via advisory boards to assure that the current industry-specific knowledge and skill sets are represented in our curriculum content, as well as provide students with a wealth of opportunities to be college and career ready. Alongside their core academic learning, students can expect to gain essential career skills via a variety of methods including career workshops and events, guest speakers, networking events, mentoring, job shadowing, apprenticeships, internships, and much more. Being part of an NBHS Academy, students develop a well-rounded skill set aimed at being prepared and able to compete in the demanding global marketplace.
